

Duovac Announces
TRANSMITTING TUBES

*of exceptional precision
and uniformity*

DUOVAC Transmitters are made to extremely rigid specifications and with great care. They are capable of handling large overloads if used intelligently.

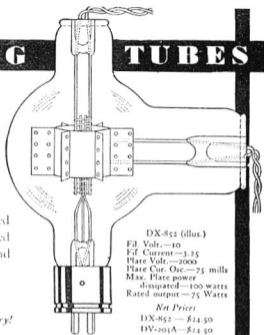

Dr. Paul G. Weller,
formerly with
Westinghouse, in
charge of Duovac
Transmitting Tube
production.

Each tube is thoroughly tested before shipping, and is guaranteed as to electrical characteristics and mechanical construction.

*Order direct from factory
enclosing check or money order.
No red tape—immediate delivery!*
